

# MaKenna

MaKenna is 15 years old. Here's what she would like you to know about her:

---

## Some of my favorite things:

Coloring, animals, all foods (except coleslaw), swimming, camping, singing, arts, playing games, and ice cream.

---

## What I want in a family:

I would like:

- A family with animals
- Children of similar age that live close by so I have people to interact with
- A family that celebrates holidays and special events
- The ability to use electronics with proper supervision
- A family that visits my current friends
- A big room and bed

---

## What I want families to know about me:

I enjoy staying active because it gives me something to do. I like being around animals and taking care of them. I am working on gaining the trust of people who care about me. I need a family that makes me happy by providing a stress free environment with no yelling or saying hurtful words. I need someone that will be upfront with me.

---

## What we want families to know about MaKenna:

Makenna has experienced significant trauma in her life. Therapy is helping her to address trauma- related behaviors. She really wants to be in a family. Makenna is able to build relationships with adults but struggles when adults set limits.

---

## What we are seeking in a family for MaKenna:

- A single or two-parent family who can provide consistent structure;
- A family with lots of energy who can keep her active and teach her new things;
- Parents who will support her in the community and at school and advocate for her needs;
- Parents with experience in trauma-related behaviors; and
- Parents who are willing to attend ongoing therapy with her.

---
